# BASS G15

Bass reflex passive subwoofer  
European transducer  
15" LF (4in)

## Presentation:

The BASS series offers a professional passive subwoofers range becoming the perfect choice for sound reinforcement challenges demanding high SPL and natural-sounding bass response designed to enhance the ultra-low bass of an existing PA system. Both models are on bass reflex configuration and constructed of 18mm birch plywood featuring 15" loudspeakers with 4" voice coil delivering a nominal power handling of 700W rms at 8 Ohms each giving low-ranging yet clearly defined bass response and rendering impulses with great accuracy in a very compact and robust enclosure. Punch and bass sensation do not have to be incompatible factors and this BASS series truly is a great example

## Features:

- Bass reflex subwoofer
- 15" (4in) LF European transducer
- 1200W AES power, 4800W peak
- Dual Neutrik NL4 connectors
- Optimized for high SPL output
- Made for an impact bass
- Recesses on the top to facilitate the stacking
- Rugged and durable 18mm birch plywood
- Powder coated custom perforated steel grille

# BASS G15

Bass reflex passive subwoofer  
European transducer  
15" LF (4in)

## Technical specifications:

### Acoustical

Type	Compact passive subwoofer
Configuration	Reflex Loaded
Power handling capacity	1200W (AES) 4800W (Peak)
Transducer type	1x 15" (4in) LF European transducer
Frequency response	32Hz - 250Hz (-10dB)
Recommended Low cut filter	35Hz Butterworth 18dB
Nominal Impedance	8 Ohm
SPL (1W/1kHz)	126dB @ 1m (continuous) 132dB @ 1m (peak)
Connectors	2x NL4 connectors

### Physical

Cabinet	18mm birch plywood with polyurea coating
Grille	Custom perforated metal grille w/ acoustic foam
Color	Black or white textured
Hardware/Rigging	4 wood feet, Ø35mm pole mount socket 2 side metal handles, 16x M6 inserts for castors
Dimensions	590x452x635mm 23.23x17.79x25.00in
Weight	32Kg 70.55lb

## Dimensions:
