

WBDLP12V

Installation:

To install the Bracket to the speaker please follow the instructions below:

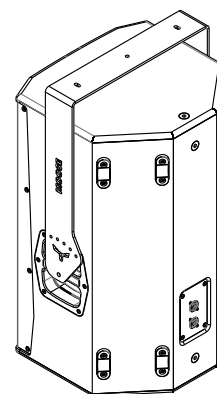

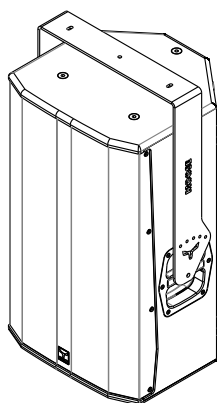

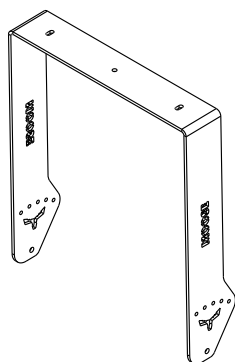

1. Prepare the bracket and the two M10 knobs supplied in the package.
2. On the speaker, remove the 2 (two) M5x50 screws located on the right top corner of each handle
3. Place the bracket over the speaker and align the M10 threaded of the handles with the M10 center holes of the bracket
4. Using the M10 knobs supplied, screw the knobs to the side handles. Do not tight it firmly yet.
5. Tilt the bracket till you get the desired angle, from 0° to 50° divided in 4 steps of 12.5°.
6. Once the angle is set, use the M5x50 screws removed from the handles to firmly tight the bracket to the speaker.
7. Adjust the grip of the M10 knobs till it's firmly tightened.

The Bracket is now installed.
